

CALL FOR PAPERS - RFID SysTech 2009

5th European Workshop on
RFID Systems and Technologies

16.06 - 17.06.2009

Bremen, Germany – BIBA - Bremer Institut für Produktion und Logistik

In the last years the European Workshop on RFID Systems and Technologies has become a central platform in Europe for personal networking and information exchange in the field of RFID technologies and applications. Based on very positive feedback from participants from industry and academia, we are now proposing the RFID SysTech 2009!

The workshop will offer an enhanced program, featuring invited and reviewed presentations from science and industry. The RFID SysTech 2009 topics cover a wide spectrum from latest investigations and RFID applications to new business models or RFID-related performance measurements.

The workshop provides an excellent opportunity to meet experts and set up new networks and information exchange on a professional level. In addition to the workshop, an industrial exhibition for the presentation of latest products will be provided.

Don't miss the chance to submit an RFID publication to this annual event!

Location:

LogDynamics
Bremen Research Cluster for Dynamics in Logistics
c/o BIBA, University of Bremen, Germany
www.logdynamics.de

Key Topics:

Technologies:

- Active / passive RFID
- RF-Transceiver for RFID
- Integrated Circuit Technologies / Transponder technologies
- Antenna Design and Air Interface
- System Modelling
- Printed Electronic and new Materials for RFID
- Processes for Tag Manufacturing
- Middleware and Databases
- Protocols and Standardization
- Security and Privacy
- NFC

RFID Application Domains:

- Logistics and Supply Chain Management
- Tracking and Tracing
- KANBAN
- Security and Privacy, RFID and passports

- Sensing, Positioning, Networking
- Health Care, Healthcard, Pharmaceutical
- Industrial Process Automation
- RFID beyond the Point of Sales
- Sociological Aspects and Technology Acceptance
- Business value of RFID applications
- Performance Measurement
- New Business Models

Key Note Speakers:

Prof. Dr. B. Scholz-Reiter, BIBA, University of Bremen
Dipl.-Ing. Klaus Finkenzeller, Giesecke & Devrient

Guideline for Preparation and Submission of Contributions :

Submissions or "Extended Abstracts", in English (recommended) or German language and formatted according to the guidelines given under <http://www.rfid-systech.org/workshop2009> are requested to be sent

until 14th February, 2009
to submissions@rfid-systech.org

The workshop language is English (recommended) or German and the proceedings will be electronically published on a CD with ISBN-Number.

Responsibilities:

Uwe Wissendheit, Jens Strüker (Program Chair)
Dieter Uckelmann, Christian Gorltd (Local Chair)
Michael E. Wernle (Exhibition Chair)
Thomas Hollstein (General Chair)

Conference Fee:

The conference fee is 210,- EUR (10% discount for speakers).

Cooperation:

The workshop is organized in cooperation with the Organic Electronics Association (oe-a/VDMA)
<http://www.oe-a.org>
the Association for Automatic Identification and Mobile Data Capture (AIM)
<http://www.aim-d.de>

Further Information:

Further detailed information about the RFID SysTech 2009 and earlier workshops can be found on our homepage:

<http://www.rfid-systech.org>

We look forward to meet you on 16th and 17th of June next year at RFID SysTech in Bremen / Germany.

With kind regards,
The RFID SysTech Team
